

Stars & Planets Mobile

Stax By Jax is a space full of cool, colorful, interesting stuff. If you have an idea and want to transform it into a project, object or invention, that is the place! Even the decor shows cool ideas and inspires you to build things.

And that's what we're going to do today. How about building a mobile of planets, stars and the Moon? Let's use the folding techniques, painting and collage for it.

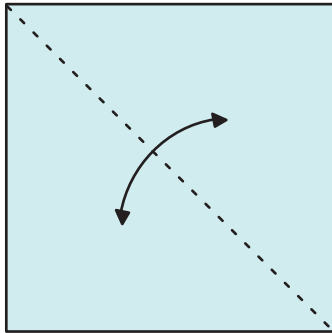

Feel free to recycle paper. But don't forget to plan first. Think about where you would like to fix the pieces, to know the length of the strings you will need and how many pieces you will make. Set the size of the origami and the colors you want to use. Then, call the family and let creativity multiply the possibilities! For example, you can think of a way to make the Moon.

Star Mobile steps

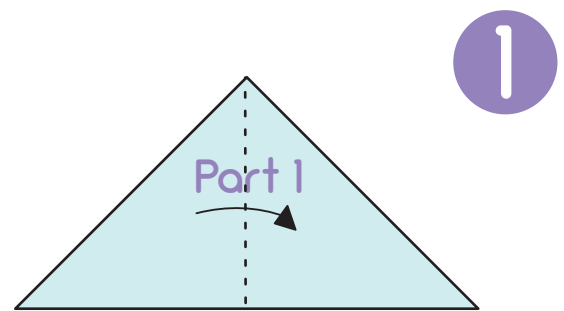

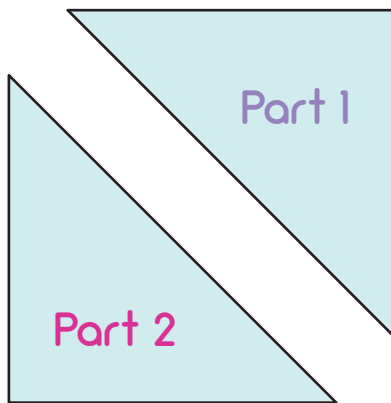

USE A SQUARE OF PAPER

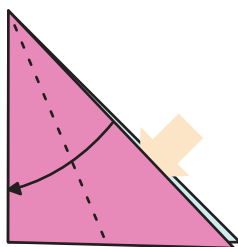

a. Fold diagonally and unfold.

b. Cut in the crease line.

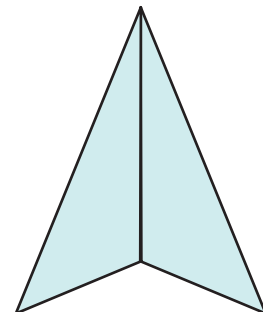

1. Fold **Part 1** in half.

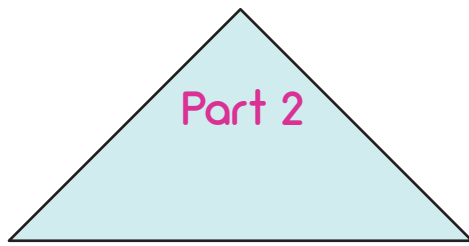

2. Open and fold the front flap as shown.

2

Part 1 is ready!

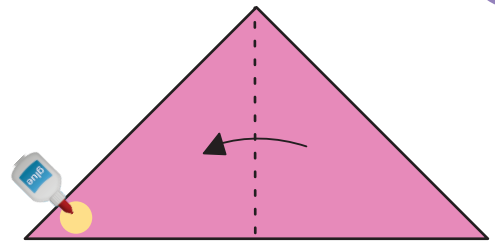

1

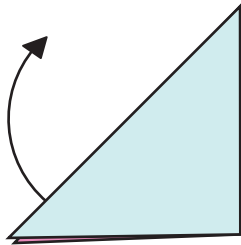

1. Turn the **Part 2** over.

2

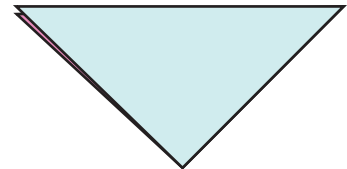

1. Put some glue. Fold the **Part 2** in half.

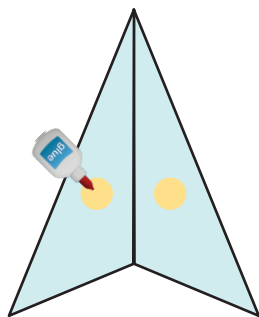

3

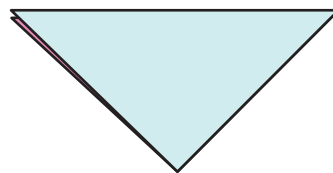

3. Rotate.

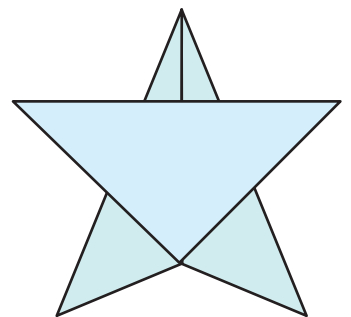

Part 2 is ready!

Part 1

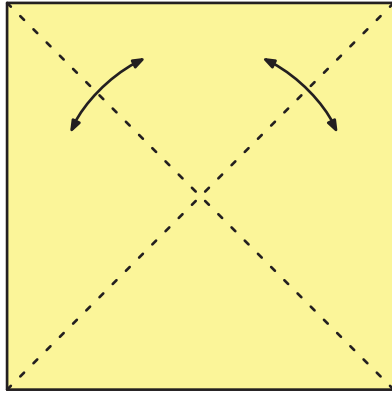

Part 2

Use glue to join the two parts.
The Star is ready! Paint and decorate it.

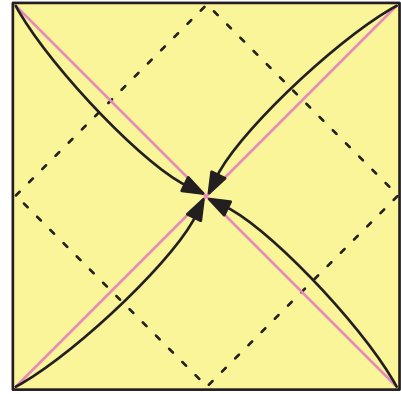

Planet Mobile steps

USE A SQUARE OF PAPER

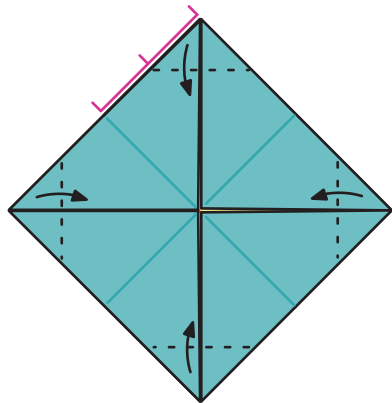

1

1. Crease on the diagonals.

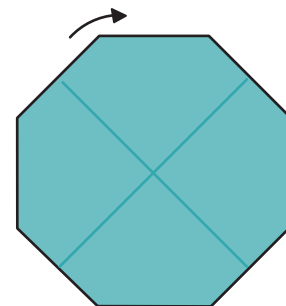

2

2. Take all the corners to the center.

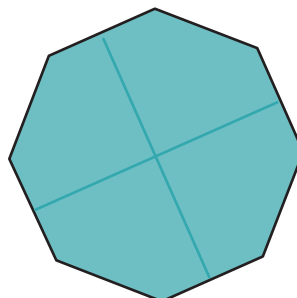

3

3. Fold the four corners in the middle of the distance between the corner and the crease.

4

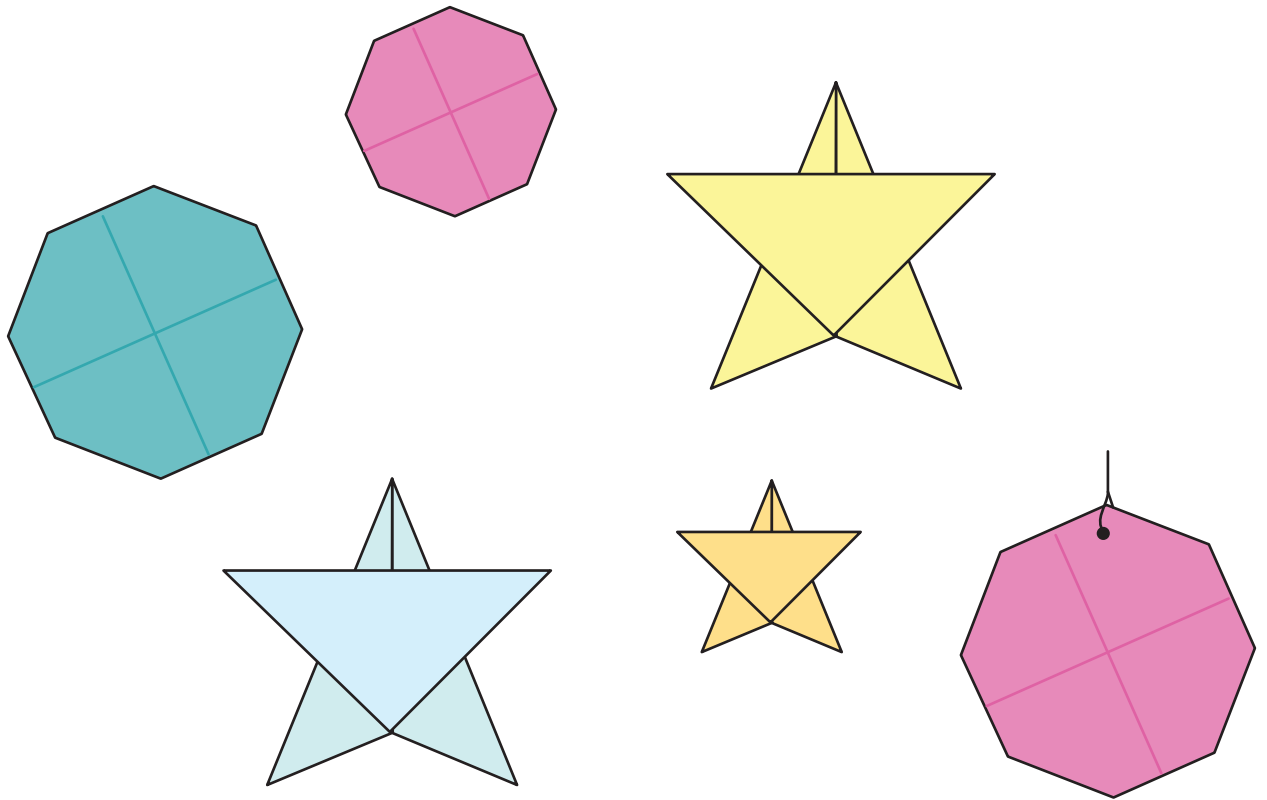

4. Turn the model over. Rotate.

The Planet is ready! Paint and decorate it.

Mobile Assembly

Make several planets and stars and decorate as you want.

Ask an adult for help to drill at the top and attach a string to hang each piece.
