

BE IT! Episode 9: "A Shred of Difference"

Paper is such an exciting material for Reese, Caily, Professor Seymour, even Melvin! On this drawing board, you now have a chance to sketch, write, wonder, and connect their stories to your own thoughts, feelings, and experiences. Go big, have fun!

Dream it

Make it

Be it!

Queen Frivol is mad at Melvin the shredder, so Caily and Reese rescue him and put his shredding abilities to good use! Brainstorm all the different ways in which paper is used in the world.

Jot down as many ideas as you can in 5 minutes. Paper is pretty awesome!

Kintsugi is the Japanese art of mending broken pottery with golden (or silver) filling. The cracks and repairs become visible. And it helps to highlight that imperfections and flaws are beautiful.

Can you think of a mistake or imperfection that you can celebrate?

In Confetti, Professor Seymour enjoys fixing things. Repairing things, instead of throwing them away, really helps the environment! Look around your spaces: have you fixed any items (big or small)?

Sketch one object on the other side of this page.

Professor Seymour also likes to collect random items that he can one day use again. Have you ever reused an item in a new way? For example, maybe you turned a cardboard box into a fantasy clubhouse! Or you converted an old t-shirt into a new puppy costume! People use old magazines to make beautiful art.

Write a story about something you've reused or repurposed.
